

# MEILLIONEN

Welsh

## 4 couple longwise

(tune first published in 1726, the dance was first published by John Walsh in 1735)

- A1 all lead up a double and back, twice
- A2 all four slip steps away from partner (still facing up) and back again
- A3 partners clap: own, R, own, L, own, both on breast, both to partner and hold  
Repeat starting L
  
- B 1's side (pass by left and then pass by right) and pass on by the left to meet 2's  
Repeat with 2's . . . like a cumulative grand chain, when 1's get back to original  
place, they rest. . . when fourth couple is passing last time, all join with partner  
to recess off
